On his way to work, Bill's car is hit by a large truck. Due to the severity of the impact, the car is totaled and Bill is injured. When police and medics arrive, they call for an ambulance. Bill is immediately taken to the emergency room at a local hospital. Upon evaluation, Bill is admitted to the Intensive Care Unit for close observation of trauma to his head and a fractured disk in his neck. After spending 2 days in the Intensive Care Unit, he is moved to a standard room and stays there for 5 more days. Bill is then transferred for inpatient care at a rehabilitation facility. His stay there is 7 days.⁴
