Comprehensive monitoring and alerts

Our proprietary monitoring platform detects high-risk activity to provide rapid alerts, so you can detect fraud at its earliest sign, enabling quick restoration for minimal damage and stress.

Allstate Security Pro®

We provide real-time, personalized content about heightened security risks. Alerts leverage internal data to inform you about emerging threats, how they may affect users, and what steps you can take to better protect yourself.

High-risk transaction monitoring

We send alerts for non-credit-based activity that could indicate fraud, such as a wire transfer or an electronic document signature that matches your information.

Financial transaction monitoring

Alerts triggered from sources such as bank accounts, thresholds, credit and debit cards, 401(k)s, and other investment accounts help you take control of your finances.

Unemployment fraud center with dedicated support

Our unemployment fraud center ensures that victims have the tools and support they need for a quicker and easier resolution of their case, saving time and stress. Our dedicated specialists are available 24/7 to help you unravel unemployment fraud.

IP address monitoring

We look for malicious use of your IP addresses. IP addresses may contribute to a profile of an individual, which — if compromised — can lead to identity theft.

Social media account takeover monitoring

Add your and your family's social media accounts and get notified of suspicious activity that could indicate hacking or account takeover. You can even add YouTube accounts and we'll monitor comments for cyberbullying, threats, and explicit content.

Lost wallet protection

You can store critical information in your secure portal, which conveniently holds important information from credit cards, credentials, and documents. Should you lose your wallet, you'll be able to easily access and replace the contents.

Award-winning coverage

Allstate Identity Protection is proud to have won the first ever Best in Class award for B2B identity protection service providers from Javelin Strategy & Research. The award specifically measures providers across three categories: prevention, detection, and resolution of identity theft and cybercrime.

Stolen wallet emergency cash†

We'll reimburse you up to \$500 for cash you had in your wallet when it was lost or stolen, after providing a police report.

KEY FEATURE

Dark web monitoring

In-depth monitoring goes beyond just looking out for your Social Security number. Bots and human intelligence scour closed hacker forums for compromised credentials and other personal information. Then we alert you if you have been compromised. Users can track:

- Social Security number
- Driver's license number
- Email address
- Medical ID number
- Usernames and passwords
- IP address
- Credit card numbers
- Gamer credentials
- Debit card numbers

Robocall blocker

Robocalls persist, despite the Do Not Call Registry and regulatory restrictions. These calls can pose a risk to you and your elderly family members, as many are scams with the goal of soliciting personal information or money. The robocall blocker can help intercept scam and telemarketing calls before they reach our participants.

Ad blocker

Members can set up automated blocking for unwanted advertisements, prevent data gathering by online trackers, and whitelist websites they trust.

KEY FEATURE

Up to \$1 million identity theft expense & stolen fund reimbursement†

If you fall victim to fraud, we will reimburse many of your fraud-related out-of-pocket costs. Get expense reimbursement for home title fraud and professional fraud. And we'll reimburse stolen funds from:

- Employee HSA, 401(k), 403(b), and other investment accounts that traditional banks may not cover
- SBA loans
- Unemployment benefits

Allstate Identity Protection will even reimburse stolen tax return refunds.
